

**G.A.I.C.
Meeting Minutes
October 19, 2005**

Attendees: *Shannon Ideus, Gwen Thorpe, Brian Pillard, Michelle Zuhlke, Trish Owen, Doug Thomas, and Terry Lowe*

Approval of Minutes

Diane requested three corrections to the original August minutes. Those changes have been made, but due to a lack of a quorum at the meeting their approval will be held over with the September minutes until next month, (November).

Statistics

NT Server

NT hits were down pretty much across the board during the month of September. The County Attorney's Office is one exception as they had 30,847 hits which is a 38% increase over September.

Mainframe

The Water Department had 4,862 Mainframe Hits, which is an all time high. The Register of Deeds was back down to a more normal number of hits (380,000), compared the the 661,000 they had last month. The platform as a whole was down nearly 500,000.

Oracle/Images

There was nearly 1.1 million images accessed with 469,500 being Assessor photos and 590, 230 IMS maps and other IMS files being loaded.

CJIS

The CJIS platform had 459,832 hits. CJIS was a little up (about 50,000), but it was not a all time high number of hits, (second highest though).

Contractor Access

Lastly, there were 27,939 contractor hits on the Building and Safety site, which is up a couple thousand from August.

ePayments

Total

Proceeds were about a \$180,000.

Event Parking

Revenue was good (\$15,815) but still a little down from August (\$16,488).

Animal License Renewals

Net revenue was \$923

Criminal Histories

Revenue was \$5,850.

Water/Sewer

Revenue was \$41,998. This number should significantly increase in the next few months.

Web Applications***ACTION***

There is a press conference with the Mayor tomorrow October 20, 2005. A.C.T.I.O.N. has already been rolled out and we have been getting a few hits. However, we do expect more hits after tomorrow's press conference. An additional A.C.T.I.O.N. demonstration will be held at the Anderson Library. The demonstration will be held on October 20th, in the evening.

Development Project Web Pages

Terry is not content with Dave Shively's website. Terry feels that the website is still needing something. Terry would like someone else to look at the website and give their opinion.

Register of Deeds

Training is ongoing. The cut over date is October 31, 2005. Doug would like to have some statistics so we don't lose track of this. The imaging server will have that space free on the server that will be available for other County and City applications. We will at some point take a snapshot (when conversion is complete) for backup/archival.

Other Business

None

Next Meeting
